Seven Strokes Group

Trusted Business Partners

INTRODUCTION

Seven Strokes Group is an accounting and consulting firm delivering reliable enterprise financial solutions. Our expertise & client-focused approach help businesses achieve clarity, compliance, and sustainable growth.

OUR MISSION

To be the leading accountants and business advisers, with a reputation of quality services when dealing with our valued clients. Adhering strictly to applicable financial reporting standards and best practice.

VISION

To be the preferred and trusted financial, accounting, and consulting partner for SMEs globally. We strive to be a specialized leader in financial accounting and consulting services, delivering excellence and strategic value to every client.

VALUES

Our values are inspired by Association of Chartered Certified Accountants (ACCA), Chartered Accountant Qualification of the UAE (UAECA) and The Institute of Chartered Accountants of India (ICAI).

OVERVIEW

Strategic Accounting, Audit & Advisory Services

We offer comprehensive accounting solutions designed to meet the diverse needs of sole traders, private companies, government bodies, and non-profit organizations. Our services ensure full compliance with applicable accounting standards and national regulations, including preparation of statutory accounts and annual financial statements.

Our dedicated team manages all aspects of accounting, VAT, tax, social security, and financial reporting. This allows business owners to focus on their core operations and growth while relying on accurate and timely financial information.

Utilizing the latest accounting software and technology, we provide weekly, monthly, and quarterly accounting services customized to each client’s specific requirements and budget. This enables the production of detailed management accounts and financial reports swiftly and efficiently.

Recognizing that access to finance is essential for business expansion, we assist clients by preparing comprehensive monthly or quarterly management accounts, detailed business plans, financial budgets, and cash flow forecasts. These deliver the clarity and credibility needed to secure funding and support sustainable growth.
